SOUTH AFRICAN STUDENT SUPPORT SERVICES

## South African Student Services Agency

*'It takes a Village to Educate a Student'*

The image features a central sun with a circular face and a stem, surrounded by numerous short, radiating lines representing sunbeams. The sun is set against a background of a world map with a grid overlay. The text is written in a white, cursive font within the sun's face.

# SASSA NATIONAL NETWORK >>

SASSA is a unique network with a strong identity built around values of equal opportunity and social assistance in support of college and university students in South Africa.

The SASSA off-campus services reach out to the large majority of students who live at home or in private accommodation in villages, townships, towns and cities. Noting that only 20 percent of students live on campus residences, SASSA serves a critical role to support commuter students with a suite of student life services.

SASSA is strategically located in every local municipality and metropolitan where there is a college and university campus. The SASSA programs and services are designed to respond on the needs of students in urban and rural environments across the country to improve on the student experience. The SASSA Advice Centres will be roll-out to support 2 million plus students in every village, township, town and city in South Africa.
